

## A CHRISTMAS REQUEST

It cost US\$91,943 to run CLS over the past 12 months. Our sincere thanks to those wonderful supporters whose generous contributions allowed us to help the children. However, with only a few long term donors, the future of CLS is not secure.

If you are already contributing regularly to CLS, thank you so much – it is so important for us to continue our work. If you are not, I ask you to consider making a continuing monthly, quarterly or yearly commitment to support our work.

To give you an idea of how your money is spent, let's take a look at some of the ways in which the money donated to CLS is used:

### Transporting 26 children from the salt fields to school on the CLS truck

**US\$370** a month

### Buying a village child a bike to get to school

Just **US\$50!**

### Educating a child at our Learning Centre

**US\$90** for a year's lessons for 1 child  
**US\$225** for a month's lessons for 30 children

### Teaching a child English at our Evening School

**US\$50** a month to provide English lessons for 30 children

### Computer lessons for our students

**US\$400** buys a new laptop to replace ageing and overused computers in our IT Suite

### Sending a student to university

**US\$450** provides a year's tuition – that's less than **US\$40** per month!

Contributions to CLS help with annual costs of running the school, such as the following:

- Salaries for 7 Learning Centre teachers + resources & support staff US\$28,194
- Salaries for 14 P/Time Evening School teachers + resources US\$23,384
- Running the salt field project US\$14,510
- Running our agricultural garden & teaching program US\$4,765

**Your contribution is much needed, and really easy to make. Just click [here](#) to get started.**

If you can't manage to commit to a regular donation, we really appreciate your contribution of any amount.
