

2017 REVIEW AND ANNUAL REPORT

OUR VISION

To provide education and training that equips students with real-world skills to advance themselves and to make a significant and useful contribution to their communities.

OUR MISSION

CLS creates life-changing opportunities for the children of Chumkriel and neighbouring communities to realise better futures for themselves and their families.

There is a strong emphasis on the health of our students. 150 students are provided with toothpaste and a new toothbrush every three months. We work with the two local schools to promote health and hygiene by providing them with hand-washing facilities and maintaining a healthy environment through, clean toilets, good nutrition and the removal of rubbish.

* **Student Health**

*Hygiene

CLS works together with Chumkriel and Agprey Schools to ensure they are child-friendly learning environments designed to promote student learning.

Shelter Building

Volunteers from overseas countries have assisted us to build 16 houses for the community with great benefit to over 80 people.

30 students received new bicycles, thanks to help from our volunteer donors.

150 students were happy to receive books, pencils and school uniforms and shoes.

*** Student Support**

Reading is Fun! At CLS there is a special emphasis on encouraging students to read. Our library is a popular place for all of our students where they are happy to borrow books to read at home. We also support reading in the local community by providing texts to five district schools, and rewarding students who achieve a good reading record.

- * To further support other schools in our district, CLS has provided library furniture – tables and bookshelves – for three schools and new flooring for another two schools.
- * One hand washing station was provided for a local school to encourage good hygiene.

* Local School Support

Our Learning Centre

100 students were enrolled for day classes in English, Khmer, mathematics, arts activities, sport and gardening.

Students lead school assemblies. They love learning and participating.

* Evening School

Over 550 students attend evening classes in English from 5.00pm to 7.00pm each day at CLS and Angprey. They learn how to read, write and speak in English.

School Debate Program
Students have learned how to debate. They hold debates with other schools. This helps their English speaking and listening skills as well as their research and critical thinking skills

* Salt Fields School

Each day 22 students from our Saltfields School are transported by school vehicle to Chumkriel where they enjoy lunch at our soup kitchen and attend classes at the government school with other students from the community. These students spend half a day at Chumkriel and the other half day at the Saltfields School where they learn in English and Khmer.

Life is harsh at the Salt Fields. Donors have built a mini-football field and a playground to provide leisure activities for the children who live here.

* Sport at Chumkriel

CLS supports all of our students in sporting activities with regular sport classes and games of volleyball and soccer. Soccer tournaments are held between Chumkriel and other secondary schools in the district. All students are encouraged to keep fit and well-exercised.

* Computing

Computers are accessed by 123 students. The students learn typing and how to use Word, Excel, Powerpoint and search the Internet.

The Garden
Students love gardening! They learn how to tend the garden, how to grow plants and how to use English in a real-life situation. And the plants they grow are used in the school's Soup Kitchen. Yum!
