The Value of Education

Education transforms lives. Education is essential to thrive in the world this century. Where would you be without your education? How would your life be different? UNESCO data (2015) reveals that while the global literacy rates for men and women (aged 15 years and over) is 86.3%. Literacy is more than the ability to read and write. It is also the opportunity to:

- Make a decent livelihood
- Communicate better
- Express views and opinions
- Use technology
- Serve society

In Cambodia the statistics are worse:

- The average Cambodian citizen has a 2nd grade education.
- 99% of the population consider themselves poor.

- 60% of the nation is subsistence rice farmers.
- Community leaders have an average education of 8th grade.

While only 80% of children start school, less than 10% graduate from high school.

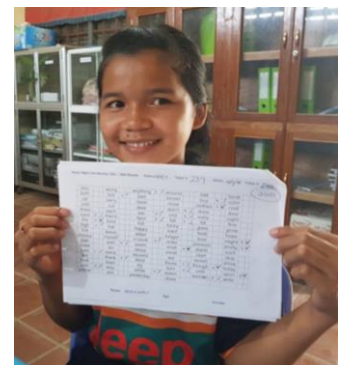

Chumkriel Language School strives to make a difference for thousands of children who benefit from its programs whether they attend the local schools, the learning centre or the Evening Schools at Chumkriel and Angprey.

When a child attends Chumkriel Language School they have the opportunity to...

CLS is not a government school. It is a NGO – Cambodian run, staffed and organised. It depends on YOU and your generosity so every child who enters CLS has the opportunity to shape their future. You are the difference! Be the difference. Please help.

The 2018 English Literacy Assessment Program conducted at Chumkriel School, Angprey School, CLS and the Saltfields School was the most successful since the program commenced in 2014. More students achieved the highest reading level and read 300 sight words than ever before. Most of the high achievers were female aged 11 – 13 years old. Almost 500 students were assessed in reading, sight vocabulary and/or basic alphabet letter/sound recognition. The great outcomes are a result of focused training, dedicated teachers and the enthusiasm of the students to learn.
