

The girl in the middle is Richana. She is 11 years old and studies in Grade 6. She lives with her widowed mother in Chumkriel Village. Her mother is a cleaner at micro finance. She doesn't have any brothers or sisters.

Richana started learning at Chumkriel Language School in 2020. She has always had regular attendance and completes her homework. Richana's pronunciation is good and her writing is neat. She always listens well in class and tries hard. She loves to play with her friends in break time and helps her friends when they can't read or don't understand some points of the lesson. And she is an MC at school assemblies.

She always learns at night and always does homework. She often asks the teacher when she cannot read or doesn't understand any words. The first time she did PM benchmark testing she could read a book at level 7. The second time she could read at level 11. And the third time she could read at level 15 when we did PM benchmark testing. Her reading has improved and she gets good results every month.

At home Richana helps her mother with housework such as cooking rice, washing dishes and cleaning the house when she has free time. She also teaches her cousins at home.

Her mother is so happy and satisfied with our school, and Richana says "I can read English better than before".

The girl reading the book is Mana. She is 11 years old and studies in Grade 6. She lives with her parents in Chumkriel Village. She has three siblings.

Mana started learning at Chumkriel Language School in 2020. At first she could read a few words in the lesson and didn't talk too much.

She always attends school regularly and completes her homework. Mana's pronunciation is good and her writing is neat. She always tries hard with her studies. Now, she talks more than before and she is an MC for school assemblies.

She loves singing and dancing, her behavior is good and her clothes are always clean. She likes to play with her friends in break time. She always asks the teacher when she doesn't understand. The first time she did PM benchmark testing Mana couldn't read the books. The second time she could read at level 7, and the third time she could read at level 9. This year she always passes the exams.

Her father is happy and said "Mana's learning is better than before".
