

COMMITTED STUDENT – PHANNA

Phanna is 13 years old and studies in Grade 6. She lives with her parents in Svay Village, Chumkriel Commune.

Phanna started learning at Chumkriel Language School in 2018. She has always had regular attendance and completes her homework. Phanna's pronunciation is good and her writing is neat. She always listens well in class and tries hard.

In 2020 Phanna could read books at Level 13 when we had PM benchmark testing. Phanna enjoys creative activities and always takes care with her drawing and craft work.

Due to Covid-19, Phanna must now study at home and she always completes her booklets of work on time. Phanna also likes to read and keeps a record of the books she has read. When she finishes her lessons Phanna sends pictures of the lessons to her teacher for marking.

At home, Phanna helps her mother with housework such as cooking rice and washing dishes when she has free time.

Phanna says "When I learn at this school, I can speak, listen, write and read English better than before".
